Presentation by Allan Emkin & Colin Bebee, CFA, PCA

Mr. Emkin and Mr. Bebee presented PCA’s 2nd Quarter 2017 Portfolio Risk Discussion for OCERS’ portfolio.

Mr. Emkin discussed the importance of portfolio diversification.
Mr. Emkin stated that PCA’s report focuses on top-down risk, including, growth risk and liquidity risk, rather than manager level risk.

Mr. Emkin discussed the difference between OCERS’ capital portfolio dollar allocation and the actual risk allocation.

Mr. Emkin presented the drivers of fixed income risk and noted that the systematic risk of changing rates is not as dominant as credit risk, foreign exchange risk, and emerging market equity risk.

Mr. Emkin remarked that currency risk is uncompensated risk due to the rationale that currency has a zero expected return over the long-term.

Mr. Prevatt and Mr. Emkin discussed what OCERS can and should do in light of knowing and understanding the drivers of OCERS’ risk.

Mr. Emkin suggested that OCERS review and discuss OCERS’ foreign exchange risk at the overall portfolio level.

Mr. Ball discussed the original rationale behind OCERS’ foreign exchange hedge transactions.

Mr. Emkin noted that the pricing mechanism of private equity masks its true volatility.

Mr. Emkin discussed the need for trustees to understand OCERS’ bets, and potential ways on how to diversify those bets.

Mr. Emkin discussed the recent performance of long treasury bonds. He also discussed that there will be further discussion on this asset class at the Strategic Annual Planning Meeting, particularly with regards to Risk Mitigation Strategies (RMS).

Mr. Ball and Mr. Emkin discussed the interest rate movements in various market regimes, particularly in periods of market crises.

Mr. Emkin explained that long treasury bonds is not a panacea, as there have been outlier periods where rates rose during equity drawdown periods.

Mr. Ball expressed agreement with the process that OCERS is heading in terms of being positioned in long treasury bonds.

Mr. Eley and Mr. Emkin discussed various fixed income systematic risks and what kind and size allocation PCA prefers in a rising rate environment.

Mr. Dewane and Mr. Emkin discussed key issues from PCA’s presentation, including: the positive correlation of risk and returns; OCERS’ portfolio may be less diversified than intended or wanted; OCERS has non-quantifiable risk due to the natural limitations in pricing private equity; and the portfolio’s currency risk is unmanaged.

Mr. Dewane asked that those respective key issues be presented at the upcoming Strategic Annual Planning Meeting. He also asked that OCERS set Board policy to address those issues in order to maximize the portfolio’s risk-adjusted returns.
Ms. Murphy voiced agreement and suggested that Mr. Dewane is expressing his preference in moving towards a risk budget framework.

Mr. Baldwin and Mr. Emkin discussed the quality of the various asset baskets in OCERS’ portfolio. They also discussed OCERS’ energy basket, specifically as it relates to sustainability.

Mr. Prevatt outlined recommended actionable items from PCA’s presentation, specifically that the Committee set strategic policy that gives direction to staff and consultants at the upcoming Strategic Annual Planning Meeting.

Ms. Murphy observed that the Committee, consultants, and staff appear to be on the same page and heading towards the same goal. She noted that staff and consultants would bring a number of strategies that could be within the RMS allocation at the Strategic Annual Planning Meeting.

A motion was made by Mr. Hilton and seconded by Mr. Baldwin to receive and file I-4. The motion carried unanimously.

The Committee recessed at 10:12 a.m.
